

Preliminary Amendment

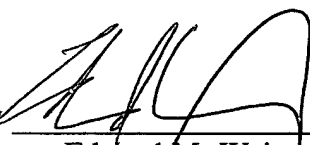

REMARKS

This preliminary amendment is submitted in response to the Notice to File Corrected Application Papers. In the Notice, the drawings, as originally filed, have been rejected because they did not have appropriate margins. In response to the Notice to File Corrected Application Papers, applicant has submitted corrected drawings containing appropriate margins under 37 C.F.R. 1.84(g). Also in the Notice, it was indicated that Figs. 3a, 3b and 3c appeared to have been omitted from the application. However, these figures were included in the application, except that they were not labeled. Accordingly, applicant has submitted herewith substitute Figs. 3a, 3b and 3c, which are identical to the originally submitted figures except that they now contain proper identification shown in red ink. It is respectfully requested that the enclosed substitute drawings be included in the present application. No new matter has been added.

Any additional fees or charges required at this time in connection with the application may be charged to our Patent and Trademark Office Deposit Account No. 03-2412.

Respectfully submitted,
